## WHY IT MATTERS

# Your customers check you online before they reach out.

A complete and consistent online presence helps people understand what you offer, where you serve, and why they can trust you. The work is not about quick tricks. It is about making the important details visible, accurate, and active over time.

### Clear business information

Name, address, phone number, services, hours, and service areas should match wherever customers find you.

### Trust-building content

Useful service pages, posts, photos, and updates help customers feel more confident before contacting you.

### Local visibility

Google Business Profile, citations, and local content support how your business appears in relevant searches.

### Simple progress tracking

Plain-English reports help you see what is improving and what still needs attention.

## COMMON GAPS

# Small details can quietly cost you inquiries.

### Incomplete profile

Missing services, categories, photos, descriptions, hours, or updates can make a business look

### Inconsistent listings

Different business details across directories can weaken trust and local search consistency.

### No regular updates

Inactive websites and social profiles can make a business feel quiet, even when the team is busy offline.

### No reporting rhythm

Without simple tracking, it is hard to know what is improving and what needs a different approach.

## HOW I CAN HELP

## WORKING TOGETHER

# A simple process from first chat to ongoing support.

### 01 Discovery Chat

A free 30-minute conversation to understand your business, goals, and current online presence.

### 02 Presence Audit

I review where you stand online and identify the practical gaps worth addressing first.

### 03 Plan and Agree

I share what I recommend, we discuss priorities, and we agree on where to start.

### 04 Ongoing Support

I get to work with regular updates, monthly reports, and open communication throughout.

## WHAT TO EXPECT

# Honest, steady, plain-English support.

### Results take time

Visibility usually improves gradually. Expect steady progress with consistent effort, not

### You will be kept informed

Monthly reports explain what happened, what improved, what needs attention, and what I recommend

### You do not need to understand SEO

I handle the technical side and explain the important parts in clear language when it matters.

### No unrealistic guarantees

I do not promise rankings or instant results. I work consistently and honestly to move things in the right direction.

## COMMON QUESTIONS

# A few things clients often ask.

### How quickly will I see results?

It depends on your starting point and the services involved. Most online presence work builds gradually over weeks and months, especially for local visibility.

### Where do I start if I do not have budget for everything?

Start with a Digital Presence Audit. It gives us a clear picture of what matters most so your budget goes toward the right priorities first.

### Do I need to sign a long contract?

No. I work month to month. You can stop, pause, or adjust depending on what your business needs.

### What do you need from me?

Mostly a bit of time at the start to understand your business, goals, and current accounts. After that, I handle the work and keep you updated.

## LET'S CONNECT

# If this sounds like what you need, let's talk.

I offer a free 30-minute discovery call so we can talk about your business and figure out whether I am the right fit. No commitment, no pressure, just a conversation.
